SK

Dear Aman,

As per our discussion yesterday, as a role of SME you would be to take 1 to 2 online doubt sessions per month with students based on Blockchain fundamentals and Ethereum in which you are expertise. Also, in between you have to solve technical based queries based on Blockchain fundamentals and Ethereum through mail communication on regular basis as per request from students.

You need to evaluate ICO white paper written or submitted by our students and give a feedback for each student. Till, now we are running 3 Batches. For every year, we launch 4 batches for our program. Average students for per Batch are 55.

Let me know how this is comfortable for you, how will be your timeline and your commercials.

Looking forward for your positive response !

Regards,
Shubham

Hi Aman,

Greetings from Amity University Online !

Amity University Online has been working on initiative **Careers of Tomorrow** to enhance technological skills of young professionals of India and all over the globe.

We have online distance learning programs in Post Graduate Program in **Blockchain Technology and Management**, Post Graduate Diploma in **Business Analytics and Intelligence**, Post Graduate Diploma in **Machine Learning** and Post Graduate Diploma in **Data Science**.

We were just inspired by your LinkedIn profile as a professional expert in Blockchain and as you conduct previous webinar on industrial applications of Blockchain.

Team Amity online would like to offer you to bcome an SME (Subject Matter Expert) for one or many module of Post Graduation Program in Blockchain Technology and Management and become a part of Amity.

For more information of program structure and faculties please visit: <https://careersoftomorrow.amityonline.com/BlockchainTechnologyAndManagement.aspx>

Looking forward to discuss with you and please let me know when we can have a call on this.

Regards,
Shubham Kothawade
