College Counselling &
Profile Development

2.5 HOUR SESSION + PRE-SESSION ANALYSIS

We help you transition.

Grade 10 is a year of transition. While board exams lurk on the horizon, you need to start thinking about what lies ahead, about grade 11 & 12, and of course about college admissions. Under pressure, students often fail to strike balance between academics and profile development: doing too many extracurriculars can be disastrous to your exam results but doing too little leads to guilt later on.

This is where we step in to guide you. Taking into account your child's talent, time and capacity and academic build up in Grade 9 and 10, we will help you set academic and extracurricular milestones to best prepare them for admissions in top global universities. These are accounted for in the **three focus areas for our session with you.**

PRE-SESSION ANALYSIS

One week prior to our session, you submit an extensive introduction form to us that covers your academic track record, past activities, and future interests. We spend a week performing statistical analysis on your profile, brainstorming ideas for you, and identifying your USP. We prioritize your capacity & aspirations, creating a personalized & realistic growth plan for discussion.

This plan is unique to your child & based on his/her real interests instead of a blind psychometric test.

FOCUS A: HONING YOUR PROFILE

1) An Early Preview of the College Application Process

- **Provision of a detailed roadmap** to help you understand and fulfil all college requirements over the next two years in an organized manner
- **Exploration of current and upcoming majors** to open you up to the versatile nature of education abroad.
- **A peep into prospective universities** across the world, specific to your interest & ambitions.

2) Solidifying your current extracurriculars

- **Boosting your impact factor:** We take a look at your strongest extracurricular and double its impact with insights into how you can scale up, mould it and make it your winning USP.
- **Information on competitions you can win:** We don't believe in generic activity laundry lists. Based on your talents, we help identify opportunities at the school, state, national or international level where you can succeed and build your list of honors.

3) Creating new verticals

- **Building both depth and breadth:** Choosing your most promising activities to focus on in order to build depth while discovering related areas to show breadth of activities.
- **Merging community service with extracurriculars:** We want to transform your activities into 'super verticals' by making community service an integral part of them. We help utilize your school projects and humanities assignments to build a social impact without any extra effort.

FOCUS B: LAYING A ROADMAP FOR COLLEGE APPLICATIONS

1) SAT/ACT Preparation Primer

- Discussing the standardized testing journey including SAT, ACT, with a planner to map out your attempts.
- Analysis of PSAT and PreACT attempt if given.

2) Advanced Placement (AP) Exams

- Choosing the correct APs to boost your profile by analyzing how these tests can be used to indicate both the left and right sides of your mind. Doing too many APs can severely hurt your profile; planning them sensibly is key.
- Arriving at an optimum workload: how you can prepare for APs alongside school studies to ensure great results in both.
- Providing a workable Advance Placement schedule

3) Building an Extracurricular Binder

- Choosing emphasis points: Identifying areas that you need to foreground and those that you need background to build a solid extracurricular profile.
- Identifying potential portfolios for future: using your talents (music, dance, sports, research, social activities etc.) as a base to compile impressive portfolios that can make you stand out. Access to curated guides.

FOCUS C: ACADEMIC BUILD UP

1) Focusing on 10th Grade Boards

- Identifying your key academic strengths: Choosing focus points to concentrate your effort without wasting energy on the non-essentials and boosting your GPA.
- Support with course material: Based on your strengths and weaknesses, if reqd, we refer to resources that will help you succeed.

2) External Academic Growth

Based on your interests, we will explore the possibility of the following:

- Ongoing online courses: Zooming in on specific EdX/Coursera/College courses to be taken in holidays or spread across the year, bit by bit.
- Summer school opportunities & research projects: Identifying summer school/research opportunities that add to your profile instead of being just a formality. Advice and tips to make them successful experiences.
- External testing opportunities: Understanding the possibility of external exams to add to your profile. We will provide you details of specific competitions online and offline that match your interests. Participating in them will enable you to build a powerful honors list for yourself.

3) High School Transition

- Providing clarity on choosing between IB/A levels/ ISC/CBSE if you are undecided.
- Transition roadmap if you are switching from CBSE/ICSE to IB/A Levels.
- Identifying potential hiccups in your transition from Grade X to XI and providing resources and solutions to help you with the same.

Post Session

- Detailed report returned to you with a clear roadmap for the upcoming year based on our discussion.
- Provision of separate email ID where you can reach us with queries during the course of the academic year. We will reply promptly.
- We will also continue to forward you any important information & opportunities we come across that may help boost your profile.

FURTHER MENTORSHIP (OPTIONAL & SEPARATE)

Post the session above, students may choose to meet Mrs Ladia again in mid-Grade 11 (separately chargeable) to maximize both academic and extracurricular performance. The G11 session **builds on the discussion in the G10** session to polish the student's profile in preparation for college applications.

In Grade 12 (separately chargeable), students engage with Ivies Chase You for **6 months of complete hand holding**, where we guide you through the entire application process – from **brainstorming essays to positioning recommendations and powerfully portraying extracurricular talent**. The process runs starts in the month of July prior to the start of the Grade 12 session and concludes with the submission of all applications by December.

Further details and charges of our Grade 11 & 12 session will be shared in due course.
