# AMAN LADIA'S
Thought Leadership Portfolio

Seeking to spread awareness of Blockchain's transparency, immutability and privacy guarantees, since 2018 I have spoken at 15 International conferences/forums attended by over 20,000 govt. officials & C-level executives. All my talks are available on YouTube and have over 40,000 views in total.

I have worked to take my ideas forward with the people I meet at conferences: for instance, I developed a white paper with Govt. of Jharkhand (state the size of California) on how blockchains can work with agriculture and subsidies.

Govt. of Dubai 'Smart City' Future Blockchain Summit

Invited to speak at Dubai World Trade Centre in front of 14,000 investors, developers & executives at the event. Focused on Blockchain working with ML for improvements in healthcare, education and law-enforcement.
